Alfred Cheney Johnston

Inspiring Figuratives for Artist series

The purpose of the *Inspiring Figurative for Artists* series is to provide study materials for the artistic praxis of artists who are trying to master the human form.

Alfred Cheney Johnston (1885-1971) was a twentieth century American photographer who followed in the footsteps of contemporary Pictorialists like Albert Arthur Allen. He preceded the multitude of photographers who began to provide *Figuratives* in the late 1940's and 1950's. His Ziegfeld Follies pictorials will be featured in another book in this series.

Johnston's work is fine art, but somewhat more subdued than other more imaginative American Pictorialists. Johnston's work lies at the border between artistic and girlie (what you find in 'Girlie Magazines' of the era).

Inspiring Figuratives for Artists is a series of books to help you with your *Figurative* artistic praxis. If you master the *Figurative* ... it is said you can master art. In each *Figurative* in this book search for vanishing points, as well as form and function.

This book is the sixth in the *Inspiring Figuratives for Artists* series for artists wanting to expand their praxis brought to you by *Atelier Press*.
